Background Information

- Travelled in Europe and North America for nine months before deciding to focus on building career in IT-industry.
- Since 2022, I have been providing contract-based/freelance testing services to companies seeking software and hardware testing.
  In 2023, I made the pivotal decision to join F24 Nordics, a prominent company, with the goal of gaining invaluable experience within a larger team dynamic. Presently, I continue to contribute to the team's success within the company.

Experience

QA Tester | Software Tester – Freelance   **02/05/2022 - 03/01/2023**
uTest – Framingham, Massachusetts, US

- Participated in over 200 test cycles and tested over 50 different products.
- Prepared clear and concise bug reports for the client.
- Experience with iOS, Android, and Windows working environments and with cross browser testing
- Experience in using web-based test case management tool such as Testrail.
- Worked with both hardware and software applications.
- Interacted with the team to understand product requirements to deliver high-quality results.
- Participated in sign-up process flows, provided feedback on the design, and communicated potential improvements.
- Provided contract-based work to companies looking for software and hardware testing. That includes Functional testing, Localization testing, Usability testing and Payment testing.

QA Engineer – F24 Nordics   **03/01/2023 - Current**

Education

Nord-Gudbrandsdal videregående skole
